Project Organization																																																
Team meeting and deciding on project idea				Team		2/15/21		2/15/21																																								
Developing software architecture				Team		2/15/21		2/15/21																																								
Setting up Google Drive				Stephy		2/15/21		2/15/21																																								
Setting up Discord				Kyra		2/15/21		2/15/21																																								
Setting up Git repository				Jack		2/15/21		2/15/21																																								
Distributing tasks and writing SDS + SRS docs				Team		2/15/21		2/18/21																																								
Data Management and Functionality of App																																																
Discussing functionality and logic of app use				Team		2/15/21		3/1/21																																								
Creating UX/UI designs				Ronny		2/15/21		3/1/21																																								
Creating account information for current users				Stephy		2/15/21		3/1/21																																								
Draft functions for deck and swiping logic				Jack		2/15/21		3/1/21																																								
Draft functions for login screen				Kyra + Callista		2/15/21		3/1/21																																								
Draft functions for utilizing new user's account info for matches				Callista		2/15/21		3/4/21																																								
Draft functions for utilizing current users' account info for matches				Kyra		2/15/21		3/4/21																																								
Draft functions for private chat feature with matches				Ronny		2/15/21		3/4/21																																								
Working on SDS and SRS documents				Team		2/15/21		3/4/21																																								
Debugging + UI Design																																																
Debugging deck and swiping functions				Jack + Team		2/22/21		3/8/21																																								
Debugging login screen functions				Kyra + Callista + Team		2/22/21		3/8/21																																								
Debugging new user account info functions				Callista + Team		2/22/21		3/8/21																																								
Debugging current user account info functions				Kyra + Team		2/22/21		3/8/21																																								
Debugging private chat functions				Ronny + Team		2/22/21		3/8/21																																								
Updating SRS + SDS functions				Team		2/22/21		3/8/21																																								
Designing user interface				Ronny + Team		2/22/21		3/8/21																																								
Output and preparing presentation																																																
Finalizing and merging deck and swiping functions				Jack + Team		2/28/21		3/10/21																																								
Finalizing and merging login screen functions				Kyra + Callista + Team		2/28/21		3/10/21																																								
Finalizing and merging new user account functions				Callista + Team		2/28/21		3/10/21																																								
Finalizing and merging current user account functions				Kyra + Team		2/28/21		3/10/21																																								
Finalizing and merging private chat functions				Ronny + Team		2/28/21		3/10/21																																								
Preparing for final presentation				Team		2/28/21		3/10/21																																								
Project one due, code and reports delivered				Team		3/5/21		3/12/21
